

RS Series New Feature Highlights

New Euro-Loc™ quick disconnect fitting for “zero” height clearance removal of collection cup.

New airline control valve for adjustment of air intake, bubble size, and water flow rate through the skimmer.

New bracing ring for stronger connection between reaction chamber and our uniquely designed transition.

New Euro-Wheel™ pinwheel impeller design for optimal performance of skimmer pump.

New foam adjustment pipe makes dialing in wet or dry foam easier than ever! Simply turn to adjust foam level.

New 90° outlet pipe for directional return to sump or post filter chamber.
